Property Description

Location: Spain, La Cala De Mijas

Genuine masterpieces shine with their own light, and this is what happens at this wonderful Villa. The entrance to this paradise is framed by two majestic, thousand-year-old Italian olive trees, revealing that you are in the presence of a unique property even before you set foot on it. Designed by the famous architect Joaquín Torres, Villa Millenium is the quintessential example that when you combine privileged architectural design with exquisite taste, the result can only be a true gem. The exterior of this villa has more than 2,500 square metres of travertine marble that perfectly combines with the numerous fountains that are scattered around the area, providing an atmosphere of calm and peace that floods every corner of the property. Inside the house we can notice that no detail has been left behind: due to the architectural mastery of Joaquín Torres, we find an ideal layout that maximises the beautiful Mediterranean light that fills the house. In addition, other features which stand out above all are the high quality finishes and the perfectly selected designer furniture. The professional interior design and custom-made furniture are work of the renowned Gustavo Amboage, Pedro Peña and Roche Bobols. The ground floor is designed as a connecting space between the manicured interiors and the beauty of the outdoor landscape, whose dazzling Balinese corner is the perfect place to complete Villa Millenium's more than 1,600 square metres of outdoor space. To make the most of the natural light, huge floor-to-ceiling windows have been installed on this floor. In this way, the panoramic views over the golf course, the sparkling Mediterranean Sea and the mountains are breathtaking. Also, thanks to the privileged orientation of the property, the sunsets from any of the terraces are a sight to be seen once in a lifetime. The designer kitchen is fully equipped with high-end Gaggeanu appliances, so you can prepare the best gourmet dishes, worthy of a place like Villa Millenium. A huge granite worktop with integrated oak table gives this kitchen a chic and special feel. Technology is a key aspect in this villa, so state-of-the-art technological features cannot be missing in every corner: double security system, lift, independent electrical circuits and underfloor heating throughout the house, even in the garage. The upper floor is the area where the incredible master bedroom worthy of a movie is located, where we find a large walk-in dressing room and en-suite bathroom with aromatherapy shower. This bedroom has direct access to a private chill out terrace overlooking the 8th hole of the golf course. Villa Millenium enjoys a privileged location in La Cala Golf Resort, within the Sierra de Mijas Natural Park. This residential complex includes three luxury golf courses, a four-star hotel and a SPA. A haven of peace and lush greenery just 10 minutes from the beach, 20 minutes from Marbella and only 30 minutes from Malaga International Airport.
