Property Description

Location: Spain, Casares

Stunning new 5 bedroom villas, situated in a prized location on the Costa Del Sol. The development is comprised of individual enclosed plots with private gardens and swimming pools; a heaven like no other. Not only have these unique projects been selected the highest quality specifications and fittings, but also that each and every villa boasts magnificent sweeping views over our golf course and the Mediterranean coast. The architects have adopted the most innovative solutions to successfully marry both luxury and quality. The villas boast their own unique style and character and can be designed to your own specific requirements, including architecture, layout, finishings, and landscaping; at Finca Cortesin, nothing is left to chance. Finca Cortesin is more than just a summer home; it is a unique and exclusive resort that combines natural beauty, an unrivalled climate and luxury to meet the everyday demands of modern contemporary living.

Imagine yourself on your own private island, yet with all of the comforts and services of a luxury hotel right at your fingertips. Leave everything to us. Whether it be 24-hour full concierge, gardening and landscaping, interior design, housekeeping, maintenance, or repairs; we will attend to your every need. With just one simple call, you will have all the time in the world to sit back, relax, enjoy, live, and take in your surroundings. The one and only Finca Cortesin.

The 16 villa development is nestled between Greens 9 and 10 of the Golf Course. Given that the land that the plots are located on is fairly steep, we have opted for homes that adapt to the lie of the land, but that at the same time are comfortable to live in and have spectacular sweeping views over the golf course, the Sierra Bermeja, and some of them the Mediterranean Sea.

The architecture is reminiscent of the “La Reserva de Cortesin”. However, that look has been updated with expansive windows, above all in the living rooms, which seamlessly connect the indoors with the porch and garden spaces. Materials include indoor and outdoor travertine marble flooring, natural oak wood internal joinery and grey lacquered aluminium windows. Following in the footsteps of Finca Cortesin, the driveway will be comprised of Portuguese cobblestones and the landscaped gardens will provide a mix of Mediterranean species, as well as sub-tropical plants that adapt well to the Costa del Sol climate.

The privileged location of Finca Cortesin, surrounded by nature and just 0.9 miles from the beach, will enable you to get to the city of Marbella, capital of the Costa del Sol, in just few minutes, as well as Puerto Banús and Sotogrande, two of the most important marinas in the Mediterranean. To make things even easier, you can reach Malaga international airport in 50 minutes by motorway and Gibraltar airport in 15 minutes.
