Property Description

Location:

Located in an elevated position in Mijas Costa, this boutique residential development presents an exclusive collection of 22 apartments with 2 and 3 bedrooms, designed to combine panoramic Mediterranean views, contemporary comfort, and carefully curated communal living.

The project benefits from a privileged orientation that opens wide perspectives over the Mediterranean Sea, allowing residents to enjoy natural light, visual openness, and a direct connection with the coastal landscape.

Positioned on the eastern edge of Mijas Costa, bordering Fuengirola, the development enjoys excellent access to beaches, leisure facilities, and an extensive range of services, while maintaining the tranquillity of a residential environment.

Its location also places residents close to Myramar Centro Comercial, one of the largest commercial areas in the surroundings, offering a wide selection of shopping, dining, and entertainment options.

The communal spaces have been designed to enhance wellbeing and everyday comfort, featuring a swimming pool with sea views, landscaped relaxation areas, a fully equipped gym, and a spa that creates a private atmosphere for rest and wellness.

The landscaped gardens have been developed with special attention to sustainability and visual harmony, creating green areas that combine low maintenance with an attractive natural environment.

Inside each residence, large picture windows allow natural light to flow throughout the interiors, creating bright and welcoming living spaces. Large-format porcelain flooring, underfloor heating throughout the property, and kitchens and bathrooms fitted with high-quality materials reflect the careful attention given to comfort and design.

Every home has been conceived to offer a refined residential experience where architecture, location, and quality come together to create a balanced Mediterranean lifestyle.
