Property Description

Location:

Located at the foothills of the Sierra de Mijas, with breathtaking views over the surrounding green belt, this new development of exclusive apartments offers a unique lifestyle where luxury and sustainability exist in perfect harmony. Set within a natural environment, the project consists of just 19 apartments, ensuring privacy and exclusivity. Designed as low-rise buildings of only two floors, each home feels spacious and villa-like, with interiors starting from 130 m², delivering a truly exceptional living experience.

All apartments feature 3 bedrooms and 3 bathrooms, with three distinct types available: Garden Villas with expansive private gardens of up to 400 m², penthouses with private jacuzzi, and penthouses with rooftop solariums of up to 130 m²—perfect for enjoying the sun and panoramic views. Each home also includes two parking spaces and a large storage room.

This development stands out for its strong commitment to sustainability. It is among the first eco-friendly projects on the Costa del Sol, holding both BREEAM and WELL certifications, which guarantee energy-efficient design and environmentally responsible construction. This not only reduces environmental impact but also ensures lower maintenance costs and more efficient living for residents.

The complex enjoys a prime location, just minutes from some of the best beaches on the Costa del Sol and close to leisure facilities, essential services, and transport connections. It offers the tranquility of a natural setting without compromising on modern conveniences. With architecture that carefully blends contemporary living with ecological principles, these apartments deliver an unparalleled lifestyle in one of the most sought-after areas of the region.
