Property Description

Location:

THREE BED | FOUR BED | FIVE BED – AVAILABLE

This exclusive residential development is located on the beachfront of Málaga, the vibrant capital of the Costa del Sol, directly opposite the renowned Antonio Banderas Promenade.

The project presents a striking building of contemporary architecture where every residence has been designed to enjoy generous terraces with open views towards the Mediterranean Sea.

Set within a residential environment surrounded by parks and landscaped green areas, the development offers a balance between urban living and natural surroundings.

Residents benefit from an exceptional location with immediate access to a wide range of sports facilities, health services, commercial centres, and university areas, creating a dynamic and convenient lifestyle.

Connectivity is another defining advantage, with the development located just ten minutes from the airport, train station, and the historic city centre of Málaga.

The residences are designed with avant-garde architectural principles where shared spaces and social environments play a central role in the overall concept of the development.

At the top of the building, the rooftop becomes a central meeting point for residents, featuring a swimming pool and solarium designed for relaxation while enjoying panoramic sea views.

Inside the homes, the design focuses on open-plan layouts that naturally extend towards the exterior terraces.

These flexible living spaces prioritise natural light and spatial flow, creating bright interiors that adapt easily to modern lifestyles.

The development offers a selection of three, four and five-bedroom residences, designed with high-quality materials and refined finishes that combine comfort, durability, and contemporary elegance.

More than a residential building, this project represents a sophisticated urban lifestyle where modern architecture, sea views, and the vibrant energy of Málaga come together in one exceptional location.
