Property Description

Location:

4 BEDROOMS FROM €2,500,000 | 5 BEDROOMS FROM €3,500,000 – AVAILABLE

This boutique residential development presents a limited collection of seven exclusive homes designed to combine architectural elegance, functionality, and sustainable living in one of the most privileged residential enclaves of La Capellanía.

Each residence has been conceived not only to deliver visual distinction but also to respond to contemporary expectations of efficiency, comfort, and environmental responsibility.

The architectural language balances refined design with practical living, creating homes where quality materials, intelligent layouts, and eco-conscious solutions define everyday life.

Set within a peaceful private enclave, the development offers residents a rare combination of privacy and tranquillity while maintaining immediate access to the wider urban lifestyle of Málaga and Marbella.

The surrounding area provides a complete range of lifestyle services, including shopping centres, fine dining restaurants, golf courses, and health clubs, allowing daily convenience without compromising residential calm.

For those drawn to outdoor living, the nearby mountains and natural trails offer extensive opportunities for walking, hiking, and enjoying the surrounding landscape.

At the same time, the neighbourhood itself is characterised by a peaceful atmosphere that reinforces the sense of retreat and exclusivity.

The location also benefits from excellent road connectivity, ensuring smooth access to nearby coastal destinations such as Benalmádena and Fuengirola.

Both Málaga city centre and Marbella can be reached easily, while Málaga International Airport is approximately fifteen minutes away.

This strategic position makes the development equally attractive as a primary residence, second home, or long-term investment within one of the most sought-after coastal areas of southern Spain.

More than a residential project, it represents a modern Mediterranean lifestyle where design, sustainability, and location come together in complete harmony.
