Property Description

Location:

Experience the perfect blend of design, nature, and sustainability in these uniquely crafted apartments. Built with the finest sustainable materials, each home offers maximum privacy while being embraced by natural vegetation, allowing residents to relax in their private jacuzzi and admire the Mediterranean Sea and surrounding landscapes.

The penthouses reflect the same architectural excellence, featuring sunroom-inspired designs and pointed hexagonal roofs that provide shade for outdoor dining areas while blending seamlessly with the surrounding trees. Enjoy a refreshing swim in your private solarium pool while taking in the natural scents of the native vegetation.

Each apartment offers two bedrooms, designed with elongated sliding doors that give the flexibility to divide the space into two distinct areas. Large windows in the living room and bedrooms fill the interiors with natural light, connecting harmoniously with the wooden accents throughout the home.

The Italian kitchen is a standout feature, with a long marble island that complements the warm and inviting interior design. The outdoor terrace merges seamlessly with the interior spaces, allowing Mediterranean fragrances and nature to become part of your living experience. Every corner of your home can be personalized with scents of your choice, creating a truly immersive environment.
