Property Description

Location:

Welcome to an exclusive collection of villas conceived within a privileged natural environment, where architecture emerges in harmony with the landscape from the very first moment.

Designed to create a seamless relationship between contemporary living and nature, each villa offers a residential experience defined by privacy, serenity and refined comfort.

The outdoor spaces are centred around a spectacular infinity pool, positioned to capture exceptional panoramic views across the surrounding landscape, where centuries-old carob trees and the Mediterranean Sea become part of the daily living experience.

The natural setting creates an atmosphere of complete tranquillity, allowing each residence to feel deeply connected to its environment.

Wellness is an essential part of the concept, with each villa incorporating a private spa designed to offer relaxation and restoration in complete privacy.

This dedicated space includes a warm jacuzzi and sauna, creating a private sanctuary where comfort and wellbeing are fully integrated into everyday life.

Natural materials and soft textures enhance the atmosphere, while carefully planned interiors create a calm and welcoming environment throughout the residence.

Outdoor relaxation areas invite residents to enjoy open-air living, with sun loungers positioned beside the pool to fully appreciate the natural surroundings and Mediterranean light.

The project is built around a philosophy of offering exceptional quality of life while preserving and respecting the environment that surrounds it.

Its architectural language embraces avant-garde design and sustainability, combining luxury with environmental sensitivity through carefully selected materials and responsible construction principles.

Nature serves as the main source of inspiration, reflected in sculptural forms that evoke organic elements such as the carob tree, while white river stones, natural wood and Corten steel bridges reinforce the project's distinctive identity.

Every detail has been designed to create a dream home where elegance, sustainability and contemporary architecture coexist in perfect balance.

This development offers a lifestyle where luxury extends beyond design, becoming a daily connection with nature, calm and wellbeing.

Additional Info
